Tony Brooks – Speaker Testimonials

"Tony delivered a very well received and excellent talk to my community - The Curious Marketing Club around managing and beating those imposter moments and negative thoughts we all have when running our own business and trying to put ourselves out there. The feedback was excellent and this was one of the best sessions we've had. Tony has a wonderful ability to get everyone involved and really tap into those key challenges we all face but don't always admit to"

Charlie Whyman, B2B Marketing Strategist

"Tony delivered a very engaging and insightful Growth Mindset session for our junior manager population. The session was professionally delivered via Zoom, with Tony keeping engagement levels high throughout with a mixture of group discussions and breakout sessions. The feedback from delegates has been extremely positive, particularly with regards the content and its relevance to the roles the delegates undertake, and the practical 'hints and tips' offered throughout the session. I would not hesitate in using Tony again"

"Tony recently held an Ask the Expert session at one of our RBP networking events based on "How a Growth Mindset Will Bring Out The Best In You" which I had the pleasure of attending and thoroughly enjoyed. Tony really is an expert in his field and an exceptionally engaging, informative and inspirational speaker. I gained a huge amount from his session and took away many helpful and practical hints and tips that I've started to put into practice. I really couldn't recommend Tony highly enough"

Katie Deacon, Vitalise HR and Rushcliffe Business Partnership

"Tony's knowledge and expertise in his field is important - not only does he understand the whole science of psychology around people, he also actually "gets" people. Quite a rare combination - Tony knows the theories better than most but he also understands the reality of people better than most. First on the scale of importance though is Tony is one of life's lovely people - what you see is what you get and that is a genuinely caring and selfless human being. He goes above and beyond and really cares about people - if you don't know Tony, then you should"
